

ornamental-break-asterisks package

Fernando Pujaico Rivera

May 23, 2025

Abstract

Creates macros to show ornamental breaks.

1 Install package

Put the `ornamental-break-asterisks.sty` file in any of these locations

- Put the `ornamental-break-asterisks.sty` file in the same path of main tex file, or.
- Execute the command:

```
kpsewhich -var-value=TEXMFHOME
```

and this returns the path of local tex files. By example, it returns

```
/home/username/texmf
```

then, put the `ornamental-break-asterisks.sty` file in the directory.

```
/home/username/texmf/tex/latex/ornamental-break-asterisks/ornamental-break-asterisks.sty
```

2 Load the package

To load the package use the next command in the preamble of main tex document.

```
\usepackage[  
  AsteriskCount=5,  
  BeforeSpace=0pt,  
  AfterSpace=0pt,  
  Symbol=*  
{ornamental-break-asterisks}
```

3 Using the package

Next, I will provide examples that demonstrate the use of all the macros included in the package. This will help illustrate how each macro functions within the context of the package and provide practical insights into their applications.

```
\lipsum[1][1-4]
```

```
\OrnamentalBreak
```

```
\lipsum[1][1-4]
```
